As outlined in NRS 439.916, identified below are the 17 issue areas for review within the charge of the Patient Protection Commission:

1. Comprehensively examining the system for regulating health care in this State, including, without limitation, the licensing and regulation of health care facilities and providers of health care and the role of professional licensing boards, commissions and other bodies established to regulate or evaluate policies related to health care [NRS 439.916.1(a)].
2. Identifying gaps and duplication in the roles of such boards, commissions and other bodies [NRS 439.916.1(b)].
3. Examining the cost of health care and the primary factors impacting those costs [NRS 439.916.1(c)].
4. Examining disparities in the quality and cost of health care between different groups, including, without limitation, minority groups and other distinct populations in this State (NRS 439.916.1(d)).
5. Reviewing the adequacy and types of providers of health care who participate in networks established by health carriers in this State and the geographic distribution of the providers of health care who participate in each such network [NRS 439.916.1(e)].
6. Reviewing the availability of health benefit plans, as defined in NRS 687B.470, in this State [NRS 439.916.1(f)].
7. Reviewing the effect of any changes to Medicaid, including, without limitation, the expansion of Medicaid pursuant to the Patient Protection and Affordable Care Act, Public Law 111-148, on the cost and availability of health care and health insurance in this State [NRS 439.916.1(g)].
8. Reviewing proposed and enacted legislation, regulations and other changes to state and local policy related to health care in this State [NRS 439.916.1(h)].
9. Researching possible changes to state or local policy in this State that may improve the quality, accessibility or affordability of health care in this State – The use of purchasing pools to decrease the cost of health care [NRS 439.916.1(i)(1)].
10. Researching possible changes to state or local policy in this State that may improve the quality, accessibility or affordability of health care in this State – Increasing transparency concerning the cost or provision of health care [NRS 439.916.1(i)(2)].
11. Researching possible changes to state or local policy in this State that may improve the quality, accessibility or affordability of health care in this State – Regulatory measures designed to increase the accessibility and the quality of health care, regardless of geographic location or ability to pay [NRS 439.916.1(i)(3)].
12. Researching possible changes to state or local policy in this State that may improve the quality, accessibility or affordability of health care in this State – Increasing access to health care for uninsured populations in this State, including, without limitation, retirees and children [NRS 439.916.1(i)(7)].
13. Researching possible changes to state or local policy in this State that may improve the quality, accessibility or affordability of health care in this State – Establishing priorities for addressing health care needs [NRS 439.916.1(i)(8)].
14. Researching possible changes to state or local policy in this State that may improve the quality, accessibility or affordability of health care in this State – Leveraging the expenditure of money by the Medicaid program and reimbursement rates under Medicaid to increase the quality and accessibility of health care for low-income persons [NRS 439.916.1(i)(6)].
15. Monitoring and evaluating proposed and enacted federal legislation and regulations and other proposed and actual changes to federal health care policy to determine the impact of such changes on the cost of health care in this State [NRS 439.916.1(j)].
16. Evaluating the degree to which the role, structure and duties of the Commission facilitate the oversight of the provision of health care in this State by the Commission and allow the Commission to perform activities necessary to promote the health care needs of residents of this State [NRS 439.916.1(k)].

As outlined in NRS 439.918 (revised on March 22, 2021 via AB 348), identified below are 2 additional issue areas for which the PPC may make recommendations to the Legislature:

18. The analysis and use of data to improve access to and the quality of health care in this State, including, without limitation, using data to establish priorities for addressing health care needs [NRS 439.918.3(d)(1)].
19. Ensuring that data concerning health care in this State is publicly available and transparent [NRS 439.918.3(d)(2)].

| 1 | Address SDOH through Medicaid waivers, targeted legislation, infrastructure funding
- Establish Rent Controls, State pass legislation granting authorization to municipalities
- Target Unhoused, insure coverage, develop permanent supportive housing plans
- Medicaid state plan and waiver authorities (e.g., 1905(a), 1915(i), 1915(c), or Section 1115) to add certain non-clinical services to the Medicaid benefit package including case management, housing supports, employment supports, and peer support services.¹
- Ease certain Medicaid requirements and expand access to vital services
  - Dental for adults
  - waiver of prior authorizations
- Severe Transportation issues throughout the state, rural and urban. |
| 2 | Addressing Uninsured, and Unwinding Medicaid’s Continuous Coverage Requirement
  - maintain enrolled from PHE
  - expand Presumptive eligibility
  - outreach and enrollment assistance |

</table>
| o Address assistance to patients to improve their use and understanding of methods for sharing their medical records with providers and providing support for assistance to payers and medical providers.  
 o Support policy change requiring all providers, facilities, and payers to participate in the national protocol that drives interoperability across the health care delivery system; direct exchange method. This participation will improve the completeness of the medical information available to providers at the point of care overall improving the continuum of care. Ultimately, this will improve patient outcomes along with improve efficiencies and decrease costs associated with care.  
 o Ensure HIT solutions regarding interoperability include the patient as a record recipient and involve patients’ decisions regarding where records are disclosed. | - Support the development of **mental health physician and nursing workforce** and require that more health carriers in the state of Nevada have sufficient availability of and access to such professionals in urban and rural areas throughout Nevada.  
 o Identify and address mental health-focused physician, nursing and other licensed mental and behavioral health professional shortages and support professional development and facilitate improvements to the licensure attainment processes. |
- Identify and address mental and behavioral health-focused physician, nursing, and other licensed mental and behavioral health professional shortages within health carrier networks, to improve access for patients in need.
- Expand the types of health carriers for whom these requirements will apply.
- Identify ways to maximize Healthcare Interoperability to support improved efficiency and quality of patient care which includes the patient.
